BACKGROUND AND ACCESS OF AGENT: Subject is a former high-ranking SS-officer who offered his services as a penetration asset of the National Democratic Party (NPD). His background during the Nazi period makes him attractive to the NPD. He has good connections in the local NPD organization of his city, and it is hoped that, eventually, he will have access to the party's national leadership.

TYPE OF AGENT COMMUNICATIONS:

The agent has a operational telephone number through which he can reach the case officer. The case officer can call Subject at his office. No other means of communications exist or are necessary.

Priority B, Subparagraph A. Subject will be targeted against the national leadership of the NPD.

OPERATIONAL DEVELOPMENTS: (include security aspects and training)

During this period Subject was under medical treatment and was unable to attend party meetings on our behalf. One meeting was held with him and his daughter in June.
